

Moving from a Megachurch Mindset to a **Pro- Liberation** Christian Movement

MEGA CHURCH MINDSET	PRO-LIBERATION CHURCH MOVEMENT
Focused on building one church or congregation.	Working towards a pro-liberation Christian movement that attracts and funnels people into multiple local movements, organizations and churches.
Preaching about social justice from a position of the moral failure of elected leaders	Preaching about social justice from a perspective of people coming together to take action to make liberation happen.
Moving church members to action as the ultimate goal.	Moving a neighborhood & community to act with us.
A single charismatic authority in the church.	Multiple voices and active collective discernment.
Congregants as passive recipients.	Congregants as active participants.
Service that overloads congregants with sensory stimulation and “entertainment”	Spaces for reflection, centering, and integration.
